EXCELLENT HUNTING

Black Bear - Timber Wolf - Grouse

American Plan & Housekeeping Packages

Your Hosts - Terry & Tami

In 1969, two young kids moved into the Canadian wilderness and along with them took a dream. In 1985, their painstaking efforts began to unfold into what is known today as Wawang Lake Resort!

Wawang Lake Resort.....

No cottages, homes or other resorts.....just us & the best Fishing & Hunting you'll EVER experience! The resort is nestled in a bay that the glaciers created centuries ago. Take in magnificent sunsets and cool evening northern lights all while listening to the loons call to each other at dusk.

Location

We are a drive in "Outpost" Resort located 140 miles northwest of Thunder Bay, Ontario (just north of Upsala, Ontario). We are located in one of the most productive areas in NW Ontario with numerous other lakes also available by road for the novice or experienced angler. Thunder Bay is the closest airport. Guests wanting to fly into Thunder Bay, can rent a vehicle for the week and drive up to the lodge. The convenience of having your own vehicle for wildlife viewing alone will make it all worthwhile.

The Lake/Fishing

Wawang Lake Resort is ranked #1 for trophy sized walleye & northern in Ontario by OFAH. Wawang Lake itself is 5,000 acres with over 75 miles of irregular shoreline which offers the fisherman exciting fish habitat to explore, such as sand bars, shoals, weed beds and islands - perfect for exciting fishing. Our lake is easy to navigate and offers 1,500' of natural white sand beach with gradual incline which is perfect for swimming. Wawang also has many remote beaches for complete privacy during a swim or a traditional shore lunch. Our lake is internationally known internationally for trophy walleye and pike but is also home to whitefish & perch. Fishing remains consistent throughout the season for numbers of fish & for those monster northern pike.

Hunting

Hunt for black bear, wolf and grouse. We also cater to Ontario resident moose hunters as well. The area around our resort has long been considered one of Ontario's best moose and bear hunting locations. Since we are the only lodge for miles and miles, the wildlife remains abundant and undisturbed in its natural habitat. The multi-system of animal trails and logging road makes it appealing for all types of hunting.

Now is the best time to hunt wolf because the population is at its highest it's ever been in Northern Ontario

HUNT the HUNTER – Ontario's Timber Wolf

Hunting a top predator is a challenge you will never forget. A timber wolf hunt is not for the novice hunter though. In fact hunting for wolf will require more determination and patience than any other type of hunt. If you're the kind of hunter that can pride themselves with this type of stamina then wolf hunting is definitely something you'll want to experience or revisit.

Wolf Hunt Packages

September 15th through to 1st Saturday in October

cabin, bedding, boat/motor, gas
\$1,795.00

Working hard to provide active baits for each individual hunter is how we operate our hunts & is what keeps our sportsmen coming back year after year. We have a very large bear hunt area surrounding our resort with a good healthy bear population due to years of diligent black bear management.

Although the bear hunt at Wawang Lake Resort is not a guaranteed hunt, we can say that there is a 98% chance of you seeing bear, therefore what the hunter does with this opportunity is entirely up to them. However, you can be certain that we take our hunts seriously and will always provide you with the best possible chance of success.

Season: August 15th to Sept 30th

What's Included in the Basic Bear Hunt

- A seven night stay - arrival Saturday
- Private cabin for your group
- Pre-baited Bait Sites
- All baiting supplies during your stay
- Freezer Service
- Orientation prior to trip to bait site
- Experienced guide's knowledge and advice
USE IT!

Things to Remember to Bring

- Bring your own tree stand as we do not provide them. Comfortable stands such as 'ladders' are most preferred by most of our hunters, however, whatever you choose remember that our trees can be very limby and have very loose bark. Self climbers are not recommended however, screw in pegs are legal.
- Your weapon of choice with case, and extra ammunition
- Camo clothing (quiet & scent free) Rain gear, Head Net, Assortment of clothing for variety of weather conditions
- DO NOT bring brand new leather boots. Older ones that have been aired for several weeks are better.
- Flashlight - Flagging Tape - Compass or GPS (know how to use it!)
- Unscented soaps, shampoo's and bug repellent a MUST! (No Thermocells on stands!)
- Blaze orange hat & vest (required by law to be worn to and from the bait site)
- Old or current state hunting license to show Ontario issuer as proof of hunting experience.

**FREE Predator
Booklet Available!**

DVD Included

Our Lodge & Accommodations

Welcome to your remote home

Our commitment to our guests is to offer them a clean, comfortable and homey environment. We pride ourselves with many conveniences that today's society has become accustomed to. In addition to great fishing & hunting our accommodations offer: a one bedroom cabin and a five bedroom cabin. We also have comfortably decorated (2) two bedroom & (3) three bedroom mobile homes that we refer to as cabins in our package descriptions. All units include forced air furnaces.

Grouse Hunting

Resort Season: September 15th to Oct 31st

Grouse hunting is a relaxing pastime that is getting more and more popular every year. What can be more rewarding than taking a long walk on a cool fall day and wandering through the wilderness and enjoying the fall foliage? The clean air and exercise combined with the thrill of the hunt makes for the most enjoyable vacation.

The region around Wawang Lake is a system of animal trails, ATV trails and old logging roads where you can explore miles and miles of wilderness, that is just stuffed with grouse. You can also combine your grouse hunting with our excellent fishing, or, another hunt.

There are three species of grouse found in Ontario. Ruffed Grouse, Spruce Grouse and the Sharptail Grouse. Ruffed Grouse is the most common and comprise 80% of what you will encounter during your hunt.

The limit for grouse in Ontario is 5 per day in any combination of species with a total of 15 in your possession and you will be surprised at the number of grouse we do have. Their cycle consistently remains to stay high.

The most popular guns for grouse hunting are .410 or 20 gauge shot gun and some hunters use a 12 gauge as well. Quickly becoming more and more popular is hunting grouse with a bow. To increase the excitement give a bow a try & the challenge is sure to thrill you. Solid hunter orange is required if you're hunting during the big game rifle season.
